

Index to Volume 152

Alphabetical Table of Contents of Authors

- Abrams, Peter A. High competition with low similarity and low competition with high similarity: exploitative and apparent competition in consumer-resource systems, 114
- Ackerly, D. D., and M. J. Donoghue. Leaf size, sapling allometry, and Corner's rules: phylogeny and correlated evolution in maples (*Acer*), 767
- Allan, Rachel A. See Mark W. Blows
- Amarasekare, Priyanga. Allee effects in metapopulation dynamics, 298
- Aparici, Eduardo, María José Carmona, and Manuel Serra. Sex allocation in haplodiploid cyclical parthenogens with density-dependent proportion of males, 652
- Arcese, Peter. See Lukas F. Keller
- Asami, Takahiro, Robert H. Cowie, and Kako Ohbayashi. Evolution of mirror images by sexually asymmetric mating behavior in hermaphroditic snails, 225
- Avilés, Leticia, and Paul Tufiño. Colony size and individual fitness in the social spider *Anelosimus eximius*, 403
- Bautista, Luis M., Joost Tinbergen, Popko Wiersma, and Alex Kacelnik. Optimal foraging and beyond: how starlings cope with changes in food availability, 543
- Blows, Mark W., and Rachel A. Allan. Levels of mate recognition within and between two *Drosophila* species and their hybrids, 826
- Boake, Christine R. B. See Sergey Gavrilets
- Boersma, Maarten, Piet Spaak, and Luc De Meester. Predator-mediated plasticity in morphology, life history, and behavior of *Daphnia*: the uncoupling of responses, 237
- Bonabeau, Eric, Jean-Louis Deneubourg, and Guy Theraulaz. Within-brood competition and the optimal partitioning of parental investment, 419
- Bouzat, Juan L., Harris A. Lewin, and Ken N. Paige. The ghost of genetic diversity past: historical DNA analysis of the greater prairie chicken, 1
- Boyd, I. L. Time and energy constraints in pinniped lactation, 717
- Brakefield, Paul M., Fanja Kesbeke, and P. Bernhardt Koch. The regulation of phenotypic plasticity of eyespots in the butterfly *Bicyclus anynana*, 853
- Brown, James H. See Felisa A. Smith
- Burley, Nancy Tyler, and Richard Symanski. "A taste for the beautiful": latent aesthetic mate preferences for white crests in two species of Australian grass finches, 792
- Campbell, Diane R. Variation in lifetime male fitness in *Ipomopsis aggregata*: tests of sex allocation theory, 338
- Carlton, C. E. See Randel Tom Cox
- Carmona, María José. See Eduardo Aparici
- Chang, Shu-Mei, and Mark D. Rausher. Frequency-dependent pollen discounting contributes to maintenance of a mixed mating system in the common morning glory *Ipomoea purpurea*, 671
- Chesser, R. Terry, and Douglas J. Levey. Austral migrants and the evolution of migration in New World birds: diet, habitat, and migration revisited, 311
- Chown, S. L., N. J. M. Gremmen, and K. J. Gaston. Ecological biogeography of southern ocean islands: species-area relationships, human impacts, and conservation, 562
- Cipollini, Martin L., and Douglas J. Levey. Secondary metabolites as traits of ripe fleshy fruits: a response to Eriksson and Ehrlén, 908
- Clark, James S. Why trees migrate so fast: confronting theory with dispersal biology and the paleorecord, 203
- Clarke, Geoffrey M. Developmental stability and fitness: the evidence is not quite so clear, 762
- Clay, Keith. See Paula X. Kover
- Condit, Richard, R. Sukumar, Stephen P. Hubbell, and Robin B. Foster. Predicting population trends from size distributions: a direct test in a tropical tree community, 495
- Couvet, Denis, Ophélie Ronce, and Chris Gliddon. The maintenance of nucleocytoplasmic polymorphism in a metapopulation: the case of gynodioecy, 59
- Cowie, Robert H. See Takahiro Asami
- Cox, Randel Tom, and C. E. Carlton. A commentary on prime numbers and life cycles of periodical cicadas, 162
- Day, Troy, and Peter D. Taylor. The evolution of temporal patterns of selfishness, altruism, and group cohesion, 102
- De Meester, Luc. See Maarten Boersma
- Deneubourg, Jean-Louis. See Eric Bonabeau
- Denno, Robert F. See Merrill A. Peterson
- Donoghue, M. J. See D. D. Ackerly
- Dwyer, Greg, Joseph S. Elkinton, and Ann E. Hajek. Spatial scale and the spread of a fungal pathogen of gypsy moth, 485
- Eckman, James E., and Beth Okamura. A model of particle capture by bryozoans in turbulent flow: significance of colony form, 861
- Ehrlén, Johan. See Ove Eriksson
- Elkinton, Joseph S. See Greg Dwyer
- Eppley, Sarah M., Maureen L. Stanton, and Richard K. Grosberg. Intrapopulation sex ratio variation in the salt grass *Distichlis spicata*, 659
- Eriksson, Ove, and Johan Ehrlén. Secondary metabolites in fleshy fruits: are adaptive explanations needed? 905
- Erritzøe, J. See A. P. Møller
- Egges, William J. Premating isolation is determined by larval rearing substrates in cactophilic *Drosophila mojavensis*. IV. Correlated responses in behavioral isolation to artificial selection on a life-history trait, 129
- Fahse, Lorenz, Christian Wissel, and Volker Grimm. Reconciling classical and individual-based approaches in theoretical population ecology: a protocol for extracting population parameters from individual-based models, 838
- Ferdy, Jean-Baptiste, Pierre-Henri Gouyon, Jacques Moret, and Bernard Godelle. Pollinator behavior and deceptive pollination: learning process and floral evolution, 696
- Festa-Bianchet, Marco, Jean-Michel Gailhard, and Jon T. Jorgenson. Mass- and density-dependent reproductive success and reproductive costs in a capital breeder, 367
- Foster, Robin B. See Richard Condit

- Gaillard, Jean-Michel. See Marco Festa-Bianchet
- Gaston, K. J. See S. L. Chown
- Gavrilets, Sergey, and Christine R. B. Boake. On the evolution of premating isolation after a founder event, 706
- Gill, Douglas E. Sewall Wright Award 1997: Douglas Joel Futuyma, i
- Gliddon, Chris. See Denis Couvet
- Godelle, Bernard. See Jean-Baptiste Ferdy
- Gouyon, Pierre-Henri. See Jean-Baptiste Ferdy
- Grace, James B., and Bruce H. Pugesek. On the use of path analysis and related procedures for the investigation of ecological problems, 151
- Gremmen, N. J. M. See S. L. Chown
- Grimm, Volker. See Lorenz Fahse
- Grosberg, Richard K. See Sarah M. Eppley
- Gutián, Javier. See Carlos M. Herrera
- Haarstad, John. See Evan Siemann
- Hajek, Ann E. See Greg Dwyer
- Hambäck, Peter A. Seasonality, optimal foraging, and prey coexistence, 881
- Hanski, Ilkka. See Atte Moilanen
- Harder, Lawrence D., and William G. Wilson. A clarification of pollen discounting and its joint effects with inbreeding depression on mating system evolution, 684
- Hawkins, Bradford A., and Marcel Holyoak. Transcontinental crashes of insect populations? 480
- Heard, Stephen B. See Lynne C. Remer
- Hedrick, Philip W. Maintenance of genetic polymorphism: spatial selection and self-fertilization, 145
- Heimpel, George E., Marc Mangel, and Jay A. Rosenheim. Effects of time limitation and egg limitation on lifetime reproductive success of a parasitoid in the field, 273
- Herrera, Carlos M., Pedro Jordano, Javier Gutián, and Anna Traveset. Annual variability in seed production by woody plants and the masting concept: reassessment of principles and relationship to pollination and seed dispersal, 576
- Hochberg, Michael E., and Minus van Baalen. Antagonistic coevolution over productivity gradients, 620
- Holyoak, Marcel. See Bradford A. Hawkins
- Hubbell, Stephen P. See Richard Condit
- Huppert, Amit, and Lewi Stone. Chaos in the Pacific's coral reef bleaching cycle, 447
- Huxel, Gary R., and Kevin McCann. Food web stability: the influence of trophic flows across habitats, 460
- Johnstone, Rufus. Efficacy and honesty in communication between relatives, 45
- Jordano, Pedro. See Carlos M. Herrera
- Jorgenson, Jon T. See Marco Festa-Bianchet
- Kacelnik, Alex. See Luis M. Bautista
- Kawecki, Tadeusz J. Red Queen meets Santa Rosalia: arms races and the evolution of host specialization in organisms with parasitic lifestyles, 635
- Keller, Lukas F., and Peter Arcese. No evidence for inbreeding avoidance in a natural population of song sparrows (*Melospiza melodia*), 380
- Kesbeke, Fanja. See Paul M. Brakefield
- Klausmeier, Christopher A. Extinction in multispecies and spatially explicit models of habitat destruction, 303
- Kobus, Kari. See Anthony J. Zera
- Koch, P. Bernhardt. See Paul M. Brakefield
- Kokko, Hanna, and William J. Sutherland. Optimal floating and queuing strategies: consequences for density dependence and habitat loss, 354
- Kover, Paula X., and Keith Clay. Trade-off between virulence and vertical transmission and the maintenance of a virulent plant pathogen, 165
- Kukuk, P. F. See S. A. Ward
- Lawton, John H. See Diane S. Srivastava
- Levey, Douglas J. See R. Terry Chesser
- . See Martin L. Cipollini
- Lewin, Harris A. See Juan L. Bouzat
- Mangel, M. See J. A. Stamps
- Mangel, Marc. See George E. Heimpel
- McCann, Kevin. See Gary R. Huxel
- Milton, Suzanne J. See Thorsten Wiegand
- Moilanen, Atte, Andrew T. Smith, and Ilkka Hanski. Long-term dynamics in a metapopulation of the American pika, 530
- Mojonnier, Laura. Natural selection on two seed-size traits in the common morning glory *Ipomoea purpurea* (Convolvulaceae): patterns and evolutionary consequences, 187
- Møller, A. P., G. Sorci, and J. Erritzøe. Sexual dimorphism in immune defense, 605
- Moloney, Kirk A. See Thorsten Wiegand
- Mopper, Susan. See Peter A. Van Zandt
- Moret, Jacques. See Jean-Baptiste Ferdy
- Numm, Charles L., and Kathleen K. Smith. Statistical analyses of developmental sequences: the craniofacial region in marsupial and placental mammals, 82
- Ode, Paul J., and Jay A. Rosenheim. Sex allocation and the evolutionary transition between solitary and gregarious parasitoid development, 757
- Ohbayashi, Kako. See Takahiro Asami
- Okamura, Beth. See James E. Eckman
- Pacala, Stephen W., and Mark Rees. Models suggesting field experiments to test two hypotheses explaining successional diversity, 729
- Paige, Ken N. See Juan L. Bouzat
- Paradis, Emmanuel. Detecting shifts in diversification rates without fossils, 176
- Peterson, Merrill A., and Robert F. Denno. The influence of dispersal and diet breadth on patterns of genetic isolation by distance in phytophagous insects, 428
- Phillips, J. A. See J. A. Stamps
- Potts, Jason. See Anthony J. Zera
- Pugesek, Bruce H. See James B. Grace
- Ranta, Esa. See Hannu Rita
- Rausher, Mark D. See Shu-Mei Chang
- Rees, Mark. See Stephen W. Pacala
- Remer, Lynne C., and Stephen B. Heard. Local movement and edge effects on competition and coexistence in ephemeral-patch models, 896
- Ricklefs, Robert E. Evolutionary theories of aging: confirmation of a fundamental prediction, with implications for the genetic basis and evolution of life span, 24
- Rita, Hannu, and Esa Ranta. Competition in a group of equal foragers, 71
- Ritchie, Mark. See Evan Siemann
- Ronce, Ophélie. See Denis Couvet
- Rosenheim, Jay A. See George E. Heimpel
- . See Paul J. Ode

- Zera, Anthony J., Jason Potts, and Kari Kobus. The physiology of life-history trade-offs: experimental analysis of a hormonally induced life-history trade-off in *Gryllus assimilis*, 7

Alphabetical Table of Contents of Titles

- Allee effects in metapopulation dynamics. Priyanga Amarasekare, 298
- Annual variability in seed production by woody plants and the masting concept: reassessment of principles and relationship to pollination and seed dispersal. Carlos M. Herrera, Pedro Jordano, Javier Guitián, and Anna Traveset, 576
- Antagonistic coevolution over productivity gradients. Michael E. Hochberg and Minus van Baalen, 620
- Austral migrants and the evolution of migration in New World birds: diet, habitat, and migration revisited. R. Terry Chesser and Douglas J. Levey, 311
- Chaos in the Pacific's coral reef bleaching cycle. Amit Huppert and Lewi Stone, 447
- A clarification of pollen discounting and its joint effects with inbreeding depression on mating system evolution. Lawrence D. Harder and William G. Wilson, 684
- Colony size and individual fitness in the social spider *Anelosimus eximius*. Leticia Avilés and Paul Tufiño, 403
- A commentary on prime numbers and life cycles of periodical cicadas. Randal Tom Cox and C. E. Carlton, 162
- Competition in a group of equal foragers. Hannu Rita and Esa Ranta, 71
- Context-dependent behavior and the benefits of communal nesting. S. A. Ward and P. F. Kukuk, 249
- Detecting shifts in diversification rates without fossils. Emmanuel Paradis, 176
- Developmental stability and fitness: the evidence is not quite so clear. Geoffrey M. Clarke, 762
- Ecological biogeography of southern ocean islands: species-area relationships, human impacts, and conservation. S. L. Chown, N. J. M. Gremmen, and K. J. Gaston, 562
- Effects of disturbance on species diversity: a multitrophic perspective. J. Timothy Wootton, 803
- Effects of time limitation and egg limitation on lifetime reproductive success of a parasitoid in the field. George E. Heimpel, Marc Mangel, and Jay A. Rosenheim, 273
- Efficacy and honesty in communication between relatives. Rufus A. Johnstone, 45
- Evolutionary theories of aging: confirmation of a fundamental prediction, with implications for the genetic basis and evolution of life span. Robert E. Ricklefs, 24
- Evolution of mirror images by sexually asymmetric mating behavior in hermaphroditic snails. Takahiro Asami, Robert H. Cowie, and Kako Ohbayashi, 225
- The evolution of temporal patterns of selfishness, altruism, and group cohesion. Troy Day and Peter D. Taylor, 102
- Experimental tests of the dependence of arthropod diversity on plant diversity. Evan Siemann, David Tilman, John Haarstad, and Mark Ritchie, 738
- Extinction in multispecies and spatially explicit models of habitat destruction. Christopher A. Klausmeier, 303
- Food web stability: the influence of trophic flows across habitats. Gary R. Huxel and Kevin McCann, 460
- Frequency-dependent pollen discounting contributes to maintenance of a mixed mating system in the common morning glory *Ipomoea purpurea*. Shu-Mei Chang and Mark D. Rausher, 671
- The ghost of genetic diversity past: historical DNA analysis of the greater prairie chicken. Juan L. Bouzat, Harris A. Lewin, and Ken N. Paige, 1
- High competition with low similarity and low competition with high similarity: exploitative and apparent competition in consumer-resource systems. Peter A. Abrams, 114
- The influence of dispersal and diet breadth on patterns of genetic isolation by distance in phytophagous insects. Merrill A. Peterson and Robert F. Denno, 428
- Intrapopulation sex ratio variation in the salt grass *Distichlis spicata*. Sarah M. Ep-

- pley, Maureen L. Stanton, and Richard K. Grosberg, 659
- Leaf size, sapling allometry, and Corner's rules: phylogeny and correlated evolution in maples (*Acer*). D. D. Ackerly and M. J. Donoghue, 767
- Levels of mate recognition within and between two *Drosophila* species and their hybrids. Mark W. Blows and Rachel A. Allan, 826
- Local movement and edge effects on competition and coexistence in ephemeral-patch models. Lynne C. Remer and Stephen B. Heard, 896
- Long-term dynamics in a metapopulation of the American pikia. Atte Moilanen, Andrew T. Smith, and Ilkka Hanski, 530
- Maintenance of genetic polymorphism: spatial selection and self-fertilization. Philip W. Hedrick, 145
- The maintenance of nucleocytoplasmic polymorphism in a metapopulation: the case of gynodioecy. Denis Couvet, Ophélie Ronce, and Chris Gliddon, 59
- Mass- and density-dependent reproductive success and reproductive costs in a capital breeder. Marco Festa-Bianchet, Jean-Michel Gaillard, and Jon T. Jorgenson, 367
- A meta-analysis of adaptive deme formation in phytophagous insect populations. Peter A. Van Zandt and Susan Mopper, 595
- A model of particle capture by bryozoans in turbulent flow: significance of colony form. James E. Eckman and Beth Okamura, 861
- Models suggesting field experiments to test two hypotheses explaining successional diversity. Stephen W. Pacala and Mark Rees, 729
- Natural selection on two seed-size traits in the common morning glory *Ipomoea purpurea* (Convolvulaceae): patterns and evolutionary consequences. Laura Mojonniér, 187
- A new look at relationships between size at maturity and asymptotic size. J. A. Stamps, M. Mangel, and J. A. Phillips, 470
- No evidence for inbreeding avoidance in a natural population of song sparrows (*Melospiza melodia*). Lukas F. Keller and Peter Arcese, 380
- On the evolution of premating isolation after a founder event. Sergey Gavrilov and Christine R. B. Boake, 706
- On the origin and rarity of interspecific nest parasitism in birds. Tore Slagsvold, 264
- On the use of path analysis and related procedures for the investigation of ecological problems. James B. Grace and Bruce H. Pugsek, 151
- Optimal floating and queuing strategies: consequences for density dependence and habitat loss. Hanna Kokko and William J. Sutherland, 354
- Optimal foraging and beyond: how starlings cope with changes in food availability. Luis M. Bautista, Joost Tinbergen, Popko Wiersma, and Alex Kacelnik, 543
- Origin of chromosomes in response to mutation pressure. Mauro Santos, 751
- Path-modeling methods and ecological interactions: a response to Grace and Pugsek. Felisa A. Smith, James H. Brown, and Thomas J. Valone, 160
- The physiology of life-history trade-offs: experimental analysis of a hormonally induced life-history trade-off in *Gryllus assimilis*. Anthony J. Zera, Jason Potts, and Kari Kobus, 7
- Pollinator behavior and deceptive pollination: learning process and floral evolution. Jean-Baptiste Ferdy, Pierre-Henri Gouyon, Jacques Moret, and Bernard Godelle, 696
- Polyspermy, egg size, and the fertilization kinetics of free-spawning marine invertebrates. Craig A. Styan, 290
- Population dynamics, disturbance, and pattern evolution: identifying the fundamental scales of organization in a model ecosystem. Thorsten Wiegand, Kirk A. Moloney, and Suzanne J. Milton, 321
- Predator-mediated interactions between and within guilds of nesting songbirds: experimental and observational evidence. Kenneth A. Schmidt and Christopher J. Whelan, 393
- Predator-mediated plasticity in morphology, life history, and behavior of *Daphnia*: the uncoupling of responses. Maarten Boersma, Piet Spaak, and Luc De Meester, 237
- Predicting population trends from size distributions: a direct test in a tropical tree community. Richard Condit, R. Sukumar, Stephen P. Hubbell, and Robin B. Foster, 495
- Premating isolation is determined by larval rearing substrates in cactophilic *Drosophila mojavensis*. IV. Correlated responses in behavioral isolation to artificial selection on a life-history trait. William J. Etges, 129
- Reconciling classical and individual-based approaches in theoretical population ecology: a protocol for extracting population parameters from individual-based models. Lorenz Fahse, Christian Wissel, and Volker Grimm, 838
- Red Queen meets Santa Rosalia: arms races and the evolution of host specialization in organisms with parasitic lifestyles. Tadeusz J. Kawecki, 635
- The regulation of phenotypic plasticity of eyespots in the butterfly *Bicyclus anynana*. Paul M. Brakefield, Fanja Kesbeke, and P. Bernhardt Koch, 853
- Seasonality, optimal foraging, and prey coexistence. Peter A. Hambäck, 881
- Secondary metabolites as traits of ripe fleshy fruits: a response to Eriksson and Ehrlén. Martin L. Cipollini and Douglas J. Levey, 908
- Secondary metabolites in fleshy fruits: are adaptive explanations needed? Ove Eriksson and Johan Ehrlén, 905
- Sewall Wright Award 1997: Douglas Joel Futuyma. Douglas E. Gill, i
- Sex allocation and the evolutionary transition between solitary and gregarious parasitoid development. Paul J. Ode and Jay A. Rosenheim, 757
- Sex allocation in haplodiploid cyclical parthenogens with density-dependent proportion of males. Eduardo Aparici, María José Carmona, and Manuel Serra, 652
- Sexual dimorphism in immune defense. A. P. Møller, G. Sorci, and J. Erritzøe, 605
- Spatial scale and the spread of a fungal pathogen of gypsy moth. Greg Dwyer, Joseph S. Elkinton, and Ann E. Hajek, 485
- Statistical analyses of developmental sequences: the craniofacial region in marsupial and placental mammals. Charles L. Nunn and Kathleen K. Smith, 82
- "A taste for the beautiful": latent aesthetic mate preferences for white crests in two species of Australian grass finches. Nancy Tyler Burley and Richard Symanski, 792
- Time and energy constraints in pinniped lactation. I. L. Boyd, 717
- Trade-off between virulence and vertical transmission and the maintenance of a virulent plant pathogen. Paula X. Kover and Keith Clay, 165
- Variation in lifetime male fitness in *Ipomopsis aggregata*: tests of sex allocation theory. Diane R. Campbell, 338

Within-brood competition and the optimal partitioning of parental investment. Eric Bonabeau, Jean-Louis Deneubourg, Guy Theraulaz, 419

Why more productive sites have more species: an experimental test of theory using tree-hole communities. Diane S. Srivastava and John H. Lawton, 510

Why trees migrate so fast: confronting theory with dispersal biology and the paleorecord. James S. Clark, 203
